The IND50TEE Interlock T-Shirt is a tee like no other. Made with a specialty knit typically reserved for the luxury market, it features ultra-fine 50 singles 100% combed cotton yarns in a substantial 210gsm Heavyweight fabric. The result? The softest, smoothest, and most durable heavyweight tee in your drawer.

Why Interlock fabric?

In standard jersey T-shirts, fabric weight depends on yarn thickness: finer yarns make lighter shirts, while coarser yarns make heavier ones. That's why most 50 singles tees are lightweight by nature.

But the IND50TEE changes the game. Its double-knit Interlock construction makes it effectively double-sided, delivering a dense, 210gsm weight—while still using ultra-fine yarns. The result is a heavyweight tee with an incredibly soft, buttery feel.
